SOFTWARE

NED — Navistar® Engine Diagnostics (NED) Software

Engine diagnostic and parameter programming service tool for all J1939 International® electronic engine systems.

Technicians can monitor the control systems, retrieve diagnostic trouble codes (DTC), change parameters, view and graph engine data, and run specialized service bay testing on all engine and aftertreatment systems.

Note: Free ServiceMaxx™ (J1708) is available for Pre-2007 International engines.

Product Number:
NED-S01 – 1 Year/
1 Computer Subscription

DLB — Diamond Logic® Builder (DLB) Software

High performance diagnostics, feature code and advanced logic programming for the electrical systems on International® truck and IC Bus® vehicles.

View electrical connector pin-outs, bidirectional control of electrical components detailed diagnostic information for specific vehicle trouble codes.

Note: Feature code programming only available for Level 2 user access. Advanced Logic programming only available for Level 3 user access. To gain higher access levels training is required.

Product Number:
DLB-S01 – 1 Year/
1 Computer Subscription

HR — HeRo Health Report Software

Collects vehicle information, diagnostic troubleshooting codes (DTCs) and other vital data points from the vehicle communication network and compiles them into a vehicle health report, which is displayed within the application. HeRo also posts these health reports to OnCommand® Connection* and the International® Service Portal[SM]**, which add additional information such as open campaigns on the vehicle and fault code action plans (FCAP).

* OnCommand® Connection access included with purchase of HeRo.

** International® Service Portal[SM] subscription sold separately.

Product Number:
**HeRo-S01 – Perpetual**
1 Computer Subscription

NK — NavKal™ Programming

Electronic Control Module (ECM), Aftertreatment Control Module (ACM) and Doser Control Unit (DCU) programming software for all International® engines.

Product Number:
NavKal-S01, NavKal-P01
1 Year/
1 Computer Subscription

EDUCATION

OnCommand® Education

Online training provides interactive courses that educate technicians, operators, and fleet managers how to properly service their vehicles, use Navistar® Special Tools, and navigate Navistar® systems.

The OnCommand® Education Learning Management System (LMS) includes a customer centric portal of Web-based training that is available from any computer with an Internet connection and includes online student progress tracking. Courses are custom selected and include printable material for later reference.

Product Number: LMS-01

INFORMATION

OnCommand® Service Information

Centralized, VIN-based online source of detailed service information for fleet managers and technicians. Facilitates faster, more accurate diagnosis, repair, and maintenance.

Real-time access to up-to-date VIN-based information, health reports, service manuals, bulletins, electrical circuit diagrams, and more.

Online (Annual Subscription)
Product Number: OCSI

Provides a wide range of valuable service information for Navistar® vehicles and engines, including diagnostic manuals, service manuals, and supporting documentation.

Provides offline access to information available at time of release via USB. Updates are released quarterly and are NOT included.

Offline
Product Number: 0000314661

OnCommand® Parts Information

Web-based system provides instant access to complete, VIN-based parts lists for International® and IC Bus® vehicles. Includes illustrated parts breakdown diagrams for easier parts identification and allows customer to submit orders direct to dealer.

Complete line set ticket information as vehicle was originally manufactured is provided. Keyword and visual search and cross-reference searches for vendor and OE parts is included.

Online (Annual Subscription)
Product Number: OCPI

VIN-specific printed or CD-ROM version of OnCommand® Parts Information.

Available offline; complete line set ticket information as vehicle was originally manufactured.

Offline
Product Number: CPC-02

TOOLS

Mechanical (Hard) Tools

Specifically designed for Navistar® vehicles and engines, Navistar hard tools enable faster, more efficient, quality repairs the first time.

These tools and more are available through your local International® / IC Bus® dealer.

OnCommand® EZ-Tech

Semi-rugged laptop and fully-rugged tablet with proprietary Navistar image on Windows® 10 Pro 64-bit operating system including Panasonic's full 3-year warranty.

Preloaded with all diagnostics software needed to diagnose and service International® vehicles; includes 5-year license for Navistar® Engine Diagnostics (NED), Diamond Logic® Builder (DLB), NavKal™ and perpetual license for HeRo.

Subscription to OnCommand® Service Information required to get software updates and upload health reports.
